**A decoration.** In the beginning of July 2010 something very special happens to me. By post I receive a big parcel with the surprise of my life. In it I find a press release about the Quantum Art project 'The Unifying Spiritual Field of the World'. I read: this special event is meant to draw global attention to the unique power of the 'female energy'. And: *'At the end of June 2010 the artists Adelheid and Huub Kortekaas have dedicated the 6<sup>th</sup> Golden Plant or the Quantum-Art project 'The Unifying Field' to one of the most radiating, passionate, spiritual and realistic Women in the world. The Golden Plant is an ode to the 'Female Energy' of millions of unknown Women who commit themselves to improving their daily reality. In the perspective of this Art Manifestation 33 inspired Women all over the world will receive a golden Seedling from this World Acre accompanied by a personal letter and a covering document for their unique contribution to these processes of change. Woman as figure-head of a new image of Man and the World on their way to a new Renaissance. Distinguished are:*

Women are the key to opening the gates to a new society. If women across the world link up their specific female strength, they will be able to approach the disputes and longstanding feelings of hate in the world in their very own way and possibly eliminate or at least reduce them... A new space arises in which the female and male energies can inspire each other equally to grow to new powerful and creative* *spiritual* *world* *order.*

**The Ode to the Female Energy.** At the backside of the Manifest Female Energy there is an Ode to the Female Energy. It is dedicated to the millions of unknown Women who devote themselves to the processes of change in the everyday reality. Apart of this it is devoted to the 33 inspired Women who receive the golden seedling for their unique contribution to the processes of Change in the World. And last but not least it is dedicated to this most radiating, passionate, spiritual and realistic Woman in the world who is receiving the golden plant of 2.20m.

**The personal letter.** This Manifest is part of a bigger project of the couple Huub en Adelheid Kortekaas. In a separate letter they write to me about their motivation to decorate me with a golden seedling, sown in the acre of 'the Unifying Spiritual Field of the World' or 'the Acre of Peace'. In relation to my founding of Academy PanSophia they talk about: *'your fascinating initiative', the result of a phenomenal and thorough research*. And a little further I read : *'Your remarkable personal knowledge and your overwhelming initiative PanSophia touched us deeply*'. And: *'what fascinates us most is your vision of the new humanity, where harmony between Male and Female prevails: in our artwork the angel is the icon of this tension'*. And: *'Your impressive books 'From Venus to Madonna', 'From Sophia to Maria' and 'Venus is not a Vamp. The image of woman in 35.000 years of Venusart' are revealing enlightening manifests of the Spiritual Female Dimension of man'*.

The icon I receive is a seedling on the Acre of Peace. But in the same time it symbolizes Man with his/her feet on the earth and the arms raised high upon the sky. It is the Human Being who balances earth and sky and who when finding balance between inner en outer and higher and lower, transforms into an angel, an angel of peace. Of course I am overwhelmed by joy.

**The visit to The Tempelhof.** On the 5th of August 2010 the secretary of Academy PanSophia Mrs Marie-José Bentinck- van Zwieten and I are welcomed most heartedly at the Tempelhof. Pictures are taken and a film is made. I am writing my name and the name of Academy PanSophia on the 8<sup>th</sup> place on the Acre of Peace.

### About Huub en Adelheid Kortekaas.

Huub en Adelheid Kortekaas married in 1969 and operated since 1999 visibly as an artistic duo. Huub is sculptor and philosopher and Adelheid has a passion for architecture and landscape architecture. In 1999 their combined efforts result in the realisation of a park and a huge house: the Tempelhof: a major piece of Art Work.

Inside the house modern small images of plants make me think at the abstract figurines of The Goddess of Anatolia and Old Europe. With her round underbody and phallic neck and face in a triangle she is found by thousands in the ancient agricultures of Anatolia and Old Europe

### The plant as metaphor for Man

Since 1974 the plant is the major theme in the whole oeuvre of Huub en Adelheid Kortekaas. Man is growing out of the dark into the light. Man is standing in the centre of the World realizing that all is connected with all and one is part of a comprehensive organism. Creator and Creatrix are one.

In September 1990 Huub en Adelheid Kortekaas visited the conference *Art Meets Science and Spirituality in a Changing Society*. Huub: To my amazement I found that almost all participants were inspired by and living by the same unifying thought. A few weeks later, these experiences provided me with the key of a long cherished wish: to create an acre of people who show and create an awareness of this global feeling of unity in their work or their way of life.

In October 1991 396 small golden Seedlings were sown over the world as a first manifestation of the Quantum-Art project 'the unifying Field of the World'. In this Peace Project, consciousness becomes a participating consciousness, a transition from an individual towards a universal way of thinking, from I to We. The human being as Quantum-Art.

## Global Quantum-Art projects

**1989-now. The Unifying Spiritual Field of the World.** The Acre of Peace is an image of the earth as field. Every farmer's field is ordered. Huub: I have based the unifying field on the number of 100. A number that symbolically marks the measure between economy and spirituality for me: Dante Divinia Comedia has 100 verses. Gaia, the goddess of Mother Earth gave birth to creatures with 100 heads and 100 arms. Allah has 100 names, 99 of which are known. The field is sown in three beds, each with 33 seedlings. So 99 people are ranged in rows of 33. There are 33 people from the spiritual, artistic and philosophical spheres; 33 people from the world of science and 33 people from politics, economics and the executive powers. Every hundredth seedling is a gilt plant, 2.20 meters high, symbolizing the spiritual size of man. A human being with arms stretching upwards: the Spiritual Dimension of Man. This Golden Plant is the metaphor for the field of tension between heaven and earth, man as form and movement, as interplay between matter and spirit, man as Quantum-Art in the divine comedy of life itself.

**1984-now. Anima Mundi:** a chain of temples of the Changing Awareness throughout the world.

**1999. The Tempelhof,** designed as a total Art Work.

**2006 The Spiritual Garden.** The representation of the five world religions in five gardens as spiritual flowers of the human spirit. In the sixth garden the Temple of Spirituality arises. In this open temple, the five world religions merge to become a monumental flower from the vision that in their source all religions are connected.

**2010. Manifest Female Energy.** In 1991 the first 4x99 Seedlings of the non-profit Quantum Art project 'the Unifying Spiritual Field of the World', the Acre of Peace, were sown all over the world in the awareness that we are all unique Seedlings of Mother Earth, connected by the wondrous need to explore the germ of human existence. Adelheid and Huub: *'All these years we kept on sowing. At this very moment we are sending 33 Seedlings to 33 passionate Women all over the world, who manifest, each in their own way the Powerful Feminine Energy. At the same time a Golden Plant of 2.20m high symbolizing 'The Spiritual Dimension of Man' will be dedicated to one of the most dedicated, spiritual and yet realistic Women of the world'.*

# Y MANIFEST FEMALE ENERGY Y

Inspired by the Quantum-Art project

THE UNIFYING SPIRITUAL FIELD OF THE WORLD

THIS SPECIAL ART EVENT IS MEANT TO DRAW GLOBAL ATTENTION TO  
THE UNIQUE POWER OF THE 'FEMALE ENERGY'

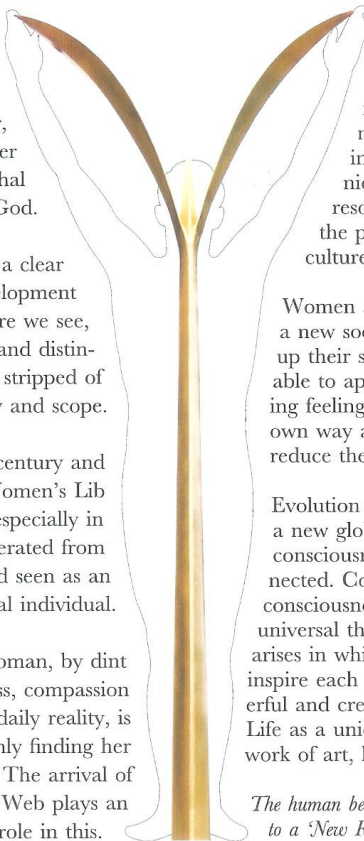

During the miracle of creation, male and female forces materialised – a truly evolutionary vision on the part of the 'Creator'; after all, the field of tension between both forces has proved to be an inexhaustible source of creative power.

In ancient history, the Big Mother was the symbol of the sacred energy of mankind. In the course of history Woman as Goddess, as utter symbol of fertility and creative power, lost her matriarchal status to an ever increasing prominence of a patriarchal Male Image of God.

The world of art and religion offers a clear and fascinating image of this development in human thinking and action. Here we see, amongst, that Woman is 'revered and distinguished' and put on a pedestal, but stripped of her identity and scope.

At the beginning of the previous century and later on in the 1960s and 1970s, Women's Lib manifested itself ever clearer, especially in Europe. Woman wants to be liberated from patriarchal society, feel respected and seen as an independent and equal individual.

Viewed in the spirit of the age, Woman, by dint of her direct clarity, open-mindedness, compassion and original, creative approach to daily reality, is stepping out of obscurity and firmly finding her way in the present complex society. The arrival of the limitless Worldwide Web plays an important role in this.

We see that these signals spread across the world and realize that women increasingly have the nerve and the guts to break through existing social structures. They look for new ways to design their lives, fighting for a more humane, more harmonious society. Their decisiveness and resourcefulness increasingly substitute the prevailing and controlling patriarchal cultures.

Women are the key to opening the gates to a new society. If women across the world link up their specific female strength, they will be able to approach the disputes and longstanding feelings of hate in the world in their very own way and possibly eliminate or at least reduce them.

Evolution wise the future of the earth asks for a new global zest; the Quantum leap of the consciousness that all and everything is connected. Consciousness becomes a participating consciousness, a transition from individual to universal thinking, from I to we. A new space arises in which the female and male energies can inspire each other equally to grow to a new powerful and creative spiritual world order. Life as a unique challenge of creation, life as a work of art, life as Quantum-Art.

## Text about the spiritual dimension of Man

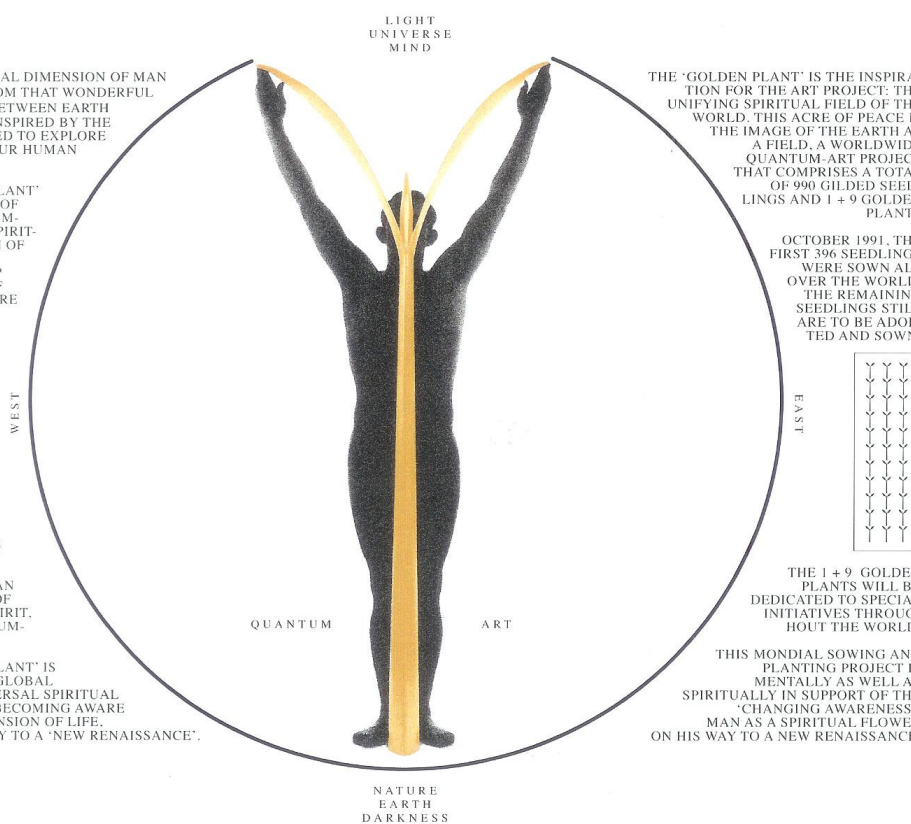

# THE SPIRITUAL DIMENSION OF MAN

THE SPIRITUAL DIMENSION OF MAN ARISES FROM THAT WONDERFUL TENSION BETWEEN EARTH AND HEAVEN, INSPIRED BY THE WONDROUS NEED TO EXPLORE THE GERM OF OUR HUMAN EXISTENCE.

THE 'GOLDEN PLANT' WITH A HEIGHT OF 2.20 METRES SYMBOLISES THE 'SPIRITUAL DIMENSION OF MAN'. SHE IS A QUANTUM-LEAP IN THE FIELD OF FORCE OF NATURE AND CULTURE. SHE IS THE Gnostic SIGN OF OUR ALLIANCE WITH THE ALL INSPIRING 'ALL'.

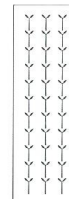

THE 'GOLDEN PLANT' IS THE METAPHOR FOR THE FIELD OF METAPHYSICAL TENSION BETWEEN HEAVEN AND EARTH. MAN AS CREATOR. MAN AS FORM AND MOVEMENT. MAN AS INTERPLAY OF MATTER AND SPIRIT. MAN AS QUANTUM-ART.

THE 'GOLDEN PLANT' IS THE ULTIMATE GLOBAL SIGN FOR UNIVERSAL SPIRITUAL ENERGY. MAN BECOMING AWARE OF A NEW DIMENSION OF LIFE. MAN ON HIS WAY TO A 'NEW RENAISSANCE'.

THE 'GOLDEN PLANT' IS THE INSPIRATION FOR THE ART PROJECT. THE UNIFYING SPIRITUAL FIELD OF THE WORLD. THIS ACRE OF PEACE IS THE IMAGE OF THE EARTH AS A FIELD. A WORLDWIDE QUANTUM-ART PROJECT THAT COMPRISES A TOTAL OF 990 GILDED SEEDLINGS AND 1 + 9 GOLDEN PLANTS

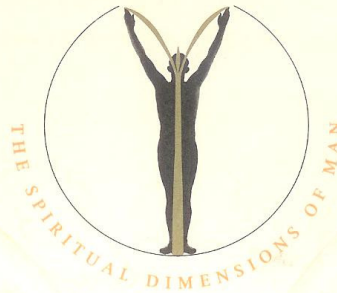

OCTOBER 1991, THE FIRST 396 SEEDLINGS WERE SOWN ALL OVER THE WORLD. THE REMAINING SEEDLINGS STILL ARE TO BE ADOPTED AND SOWN.

THE 1 + 9 GOLDEN PLANTS WILL BE DEDICATED TO SPECIAL INITIATIVES THROUGHOUT THE WORLD.

D E T E M P E L H O F

Dear Annine van der Meer,

*This special Art Event is meant to draw global attention to the unique power of the "Female Energy"*

A dear friend, Gerthe Lamers, told us of your fascinating initiative of conscious human knowledge centre 'Pansophia', the result of a phenomenal and thorough research.

What fascinates us most is your vision of the new humanity, where harmony between Male and Female prevails: a community of man. (In our artwork, the angel is the icon of this tension!).

Your impressive books, 'Van Venus tot Madonna', 'Van Sophia tot Madonna' and 'Venus is geen Vamp' are revealing enlightening manifests of the Spiritual Female Dimension of man.

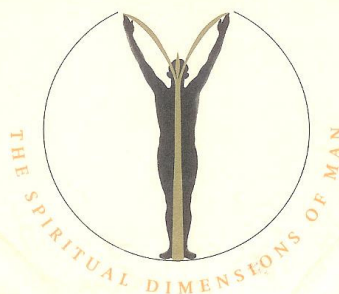

Your remarkable personal knowledge and your overwhelming initiative Pansophia touched us deeply.

The course of our whole life and work confirms your vision, so brightly expressed in Pansophia, a work of art in and of itself.

This, dear Annine, inspired us to send you one of the 990 small golden Seedlings to thank you for your considerable contribution to the Changing Awareness.

In 1991 the first 4 x 99 'Seedlings' of the non-profit Quantum-Art project 'The Unifying Spiritual Field of the World', the Acre of Peace, were sown all over the world in the awareness that we are all unique Seedlings of Mother Earth, connected by the wondrous need to explore the germ of our human existence.

## D E T E M P E L H O F

All these years we kept on sowing. At this very moment we are sending 33 Seedlings to 33 passionate Women all over the world, who manifest, each in their own way, the Powerful Feminine Energy.

At the same time,  
\* a 'Golden Plant' of 2.20m high symbolizing 'The Spiritual Dimension of Man',  
will be dedicated  
to one of the most radiating, passionate, spiritual and yet realistic Women in the world.

She and you are the Icons of the Female Energy of millions and millions of unknown strong Women who commit themselves to seek new ways to shape their lives, to change their daily reality.

We sincerely hope you will appreciate and wear this Seedling as a universal connecting symbol of 'Man' as metaphysical Flower, such as Creation has provided us with.  
Man on his Way to a New Renaissance.

If you happen to be in The Netherlands, you are most welcome at The Tempelhof so we can truly meet and you will be able to sign the 'Screen'.

With love and respect, as metaphysical gardeners, working in the field of Mother Earth.

*Adelheid en Huub Kortekaas*

For now - out of respect - we will not mention the name of this radiating woman.
