De first lectures had topics as feminism and political activism. The last ones covered archaeological/historical and religious subjects.

The presentations of Dr Marguerite Rigoglioso and myself belonged to these groups. Here you see a picture of the excellent speech in Italian of Marguerite about her first book: *The Cult of the Divine Female in Ancient Greece*. See the website. At the right you see translator Valeria.

In the middle of September 2010 her second book was released titled: 'Virgin Mother Goddesses of Antiquity'.

My presentation. Although I have some experience in delivering speeches in English, it was the first time that I gave a talk on an international conference before an international audience. The title of speech and Power Point Presentation was: 35.000 years Venusart. The archaeology of female leadership. The presentation was given in English and at once translated in Italian by Valeria, the young and passionate translator. I had prepared handouts in English and Italian and also the texts on the slides were in English as well as in Italian; Genevieve and Morena were a great help in preparing and diffusing the handouts. All this in order to save time and to inform the bilingual audience better and quicker.

The speech was received enthusiastically and young women thanked me for coming all the way to Rome to hand over this new information. Genevieve Vaughan requested to put the whole presentation on her website. See www.gift-economy.com.

At the end of the conference the sacred bread is offered to Gen and is divided under the participants.
